

Course Procedures Advanced Workshop, Life Innovations, Inc.

This one day Advanced Workshop begins with completing the Informed Consent Form. Before participating in this Advanced Workshop, you must complete and sign the Informed Consent Form (Idaho State University). Before the Advanced Workshop begins, the Seminar Director will ask for and answer any questions you have regarding the Informed Consent Form. The Advanced Workshop ends with a Satisfaction Survey and an Exam.

This Advanced Workshop is eight in duration: six hours of instruction/learning, plus one hour for administration, and one hour for lunch.

The content for this Advanced Workshop is located on the “Outline of the Advanced PREPARE/ENRICH Workshop.” The Outline provides the schedule for the day and the order the material is presented.

The material for the Advanced Workshop includes the Advanced Manual (copies of the PowerPoint slides, three per page, double sided; and five “How to Series” sheets interspersed within the Advanced Manual). Content also includes six “Worksheets.” The “Worksheets” are learning aids and job aids. The “Worksheets” will aid your ability to interpret the ENRICH Counselor (Computer) Report, in light of the national studies presented during the Advanced Workshop. The “Worksheets” are foundational to this Advanced Workshop. The material also includes the ENRICH Counselor Report, the Life Innovations, Inc. catalog, and the PREPARE-CC (Cohabiting Couples) packet.

The PowerPoint slides will be presented to you via an LCD projector, a transparency projector, or by referring to the Advanced Manual. (The visual presentation of the PowerPoint slides is fewer than what is printed.) The visual PowerPoint slides are color-coded: red background to designate a new module, light green/blue background for slides the students should pay particular attention: performance objectives, relevance of content or skill, and/or objective of the study being presented, and purple for basic content. Some graphs or charts may have backgrounds of various colors for variety. The printed PowerPoint slides in the Advanced Manual are printed in black and white.

The Advanced Workshop will move forward fairly quickly. The goal is to provide you with time for *practice: actually using the Worksheets and the ENRICH Counselor Report*. If you have questions or comments, please gain the Seminar Director’s attention. S/he is here to help you learn the content of this Advanced Workshop! Please do not allow the pace of the Advanced Workshop to progress too quickly for you.

As stated in the Informed Consent Form, you do not have to complete the exam in order to receive credit for attending this Advanced Workshop. Completing the exam will provide valuable information for this and future workshops produced by Life Innovations, Inc. Please complete the satisfaction survey and the exam.
